Community Planting Events

The Adelaide Plains Council recognises the importance of the coastal area and management required of the environmental assets along our coastline. In partnership with the Adelaide and Mount Lofty Ranges Natural Resource Management Board, Adelaide Plains Council will host two family friendly community planting days in May 2018.

Adelaide Plains Council invites you to join us in revegetating the northern coastal areas. If you're interested in getting outdoors, connecting with your community, protecting dunes systems, further increasing the natural biodiversity or increasing your skills then this is the event for you.

Saturday 5 May from 2:00pm – 4:30pm at Port Prime and Sunday 13 May 9:00am – 11:30am Thompson Beach. Maps with details of the meeting point are available on Adelaide Plains Council website (<http://www.apc.sa.gov.au>).

We ask that you please wear appropriate clothing (long pants, enclosed shoes and hat). Bring your own drink bottle. Gloves and light refreshments will be provided.

RSVP essential. Call Adelaide Plains Council on 8527 0200 or email info@apc.sa.gov.au.

James Miller
Chief Executive Officer
