

## Media Release

### Adelaide Plains Library – Facebook page

Adelaide Plains Council is excited to announce the launch of The **Adelaide Plains Library** Facebook page. This platform will provide an alternate means of updating the community in relation to Library events and programs.

The Facebook page shall be launched on Tuesday 28 August 2018. The first post will be promoting the wonderful array of art works being displayed at the Two Wells Library as part of a *South Australian Living Artists (SALA)* exhibition.

Council, at its 16 July 2018 Ordinary Council meeting endorsed the establishment of the Facebook page for a six month pilot program. The Facebook community will be updated with posts relating to Adelaide Plains Council Library and Community Services, including the promotion of adult programs, such as the *Tech Savvy for Seniors Digital Training*, children's programs including the ever popular school holiday sessions, operating hours and special features such as the posting of local historical photographs. The Facebook page will also promote library services available across the State and information relating to the new Libraries SA app and the range of free databases that borrowers can access through their library membership card.

The Adelaide Plains Library is offering an abundance of exciting programs and events in the coming months. For more information, 'like' our Facebook page - **Adelaide Plains Library**.
