

## **Media Release**

### **Community Planting Events**

The Adelaide Plains Council recognises the importance of the coastal area and management required of the environmental assets along our coastline and is supporting Adelaide and Mount Lofty Ranges Natural Resource Management Board by holding two family friendly community planting days, including National Tree Day, in July 2018.

Adelaide Plains Council invites you to join us in revegetating the northern coastal areas. If you are interested in getting outdoors, connecting with your community, protecting dunes systems, further increasing the natural biodiversity or increasing your skills then this is the event for you.

Sunday 22 July 9:00am – 12:30pm at Port Prime

Sunday 29 July 9:00am – 12:30am at Thompson Beach

For more information and registration details please visit Eventbrite:
