Local Businesses to Benefit

Adelaide Plains Council is pleased to advise that we recently held two (2) information sessions for local business representatives as part of the Drought Communities Programme.

The workshops were held in Mallala and Two Wells and involved discussions on the Programme criteria, procurement processes and risk assessments. We have identified several businesses that will be engaged with the 13 community groups, which will assist in delivering the \$1.8m worth of projects to be completed by 30 June 2020.

We would like to involve as many local businesses as possible to support Council's commitment to economic investment in the region. If you missed the sessions and would like to register your business, please visit Council's website at www.apc.sa.gov.au/businessregistration.

Council is excited about the wonderful opportunity that the Drought Communities Programme provides for our community. Further information on the Programme is available at www.business.gov.au/assistance/drought-communities-programme.
